

Connect your MPI devices.
Just what you need.

MPI fieldbus connectivity

The MPI extension card offers Machine Builders, System Integrators and OEMs the ability to remotely access and retrieve data from PLCs with an MPI port. This extension card is the perfect link for any MPI PLC, providing transparent gateway functionality between the ISOTCP and the MPI/Profibus (S7) protocols.

The MPI extension card is only dedicated to the eWON Flexy 205.

Technical characteristics:

Number of ports		1
Physical mode		MPI (1500V galvanic isolation through the power supply isolation from ground)
Connector		SUBD9 (female)
Operating temperature		-25 to +60°C
Certifications		
CE	Compliant with	EMC Directive 2014/30/EU; LVD 2014/35/EU RoHS3 directive 2015/863/EU REACH
	According to standards	EMC: ITE emission Class A and Immunity EN55032; EN55024
FCC/IC	Compliant with	This product complies with the Part 15 of the FCC rules
Japan	Compliant with	This device complies with Japanese regulations
Safety	Conform to	EN;UL;IEC;CAN 60950-1 EN;UL;IEC;CAN 62368-1 UL recognized: file number E350576 CB certificate n° DK-53957-A1-UL & DK-84039-UL
Ordering Ref.		
FLC 3701
